

## Contact Information for Health and Human Services Committee

**LB 802** would create the Health and Climate Resiliency Taskforce. Chairs of five of the Unicameral's standing committees will each appoint two voting members of the Task Force. Fifteen state agency heads or their appointees will serve as non-voting members. Together, they will develop a Strategic Plan so that the State of Nebraska can adapt to and mitigate the serious impacts of climate change on the health and well being families, communities, our economy and environment.

### Example of a short Email or Phone Call to a Senator's Office Re: LB 802

Senator \_\_\_\_\_, I am \_\_\_\_\_, and I live in/at (your city or address). I am contacting you today to ask that you support LB 802 which would create a Health and Climate Resiliency Task Force. This Task Force, guided by the research of UNL, will develop a strategic plan to help the State of Nebraska adapt to and mitigate the impact of climate change on the health and well being of our families and communities. Please vote for LB 802 to move to the next stage of debate and make this message a part of the official record of your public hearing.
